### **REASONS FOR ALLOWANCE**

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

2. Claims 2-32 and 34-41 are allowed over the prior art of record.

3. The following is an examiner's statement of reasons for allowance:

As per claims 7 and 41, the present application has been thoroughly reviewed. Upon extensive and exhausted searches of various databases (see search notes in case jacket), the examiner deems that the claimed features "automatically extracting and integrating relationship information for said user from multiple heterogeneous information sources; wherein said step of building a data structure further comprises the step of tracking communication intensities between each pair of communication entities via each information source; and integrating the relationship information from the heterogeneous information sources, in response to said tracking step" in conjunction with other elements of the independent claims are not found anticipated or obvious over the prior art made of record.

Art Unit: 2172

4. The closest prior art, Clark et al. US Patent 6, 411,922 relates to system and method optimization, and Gupta et al. US Patent 6,571,243 relates to structured information retrieval but fail to teach the above limitations.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
